## Canadian Engineering Memorial Foundation Announces 2008 Scholarship Winners

**Carolyn Greaves of Vancouver, British Columbia** has been named the winner of the 2008 Claudette MacKay-Lassonde PhD Scholarship worth \$15,000.

Ms. Greaves is studying for her Doctorate in Mechanical Engineering at the University of British Columbia.

“The Canadian Engineering Memorial Foundation is pleased to present Ms. Greaves with this scholarship,” says Dr. Suzelle Barrington, President of CEMF.

“Ms. Greaves’ significant involvement in engineering has led to many positive contributions on her part. Not only was she the co-founder of Synaptic Analysis Consulting Group, a biomechanics consulting firm, but she also has a vast array of work experience with companies worldwide.”

“Ms. Greaves is dedicated to her research and continuation of her studies and is very deserving of this scholarship. We have no doubt she will continue to be a positive role model for others in the engineering field and wish her the best in all her future endeavors.”

Along with the \$15,000 scholarship, Ms. Greaves will receive an expense-paid trip to the CEMF Annual Awards Luncheon in Québec City during the occasion of the Annual General Meeting of Engineers Canada on May 23, 2008.

The Canadian Engineering Memorial Foundation was founded in 1990 and honours the memory of the 14 women from École Polytechnique in Montreal who lost their lives on December 6, 1989.

CEMF is committed to creating a world where engineering meets the needs and challenges of Canadians by utilizing the skills and talents of men and women alike, promoting engineering as a career choice with the generous support of Canadian corporations and many individual engineers from coast to coast.

The Foundation provides a total of 16 scholarships at the undergraduate, Masters and Ph.D. levels of study and promotes engineering as a career choice for women through their website, press releases, Annual Awards Luncheon and scholarship winner presentations to high school students.
